

Dear Sir/Madam,

Please find attached a copy of my CV for your consideration.

I am an iOS mobile app developer with two years experience using Swift , Xcode. I have experience of publishing my own Apps on the App Store; use of various iOS Frameworks; Cocoapods and GitHub. I have experience using the Camera API as well as creating demo Apps using HLS (HTTP live streaming).

I am also experienced in Agile processes and I am a certified Scrum Master (PSM1).

I am self taught and I am looking to gain commercial experience and feel this role would be an ideal opportunity to take me to the next step on my journey. I have family in the Knowsley area and if I am successful with the application I would be looking to re-locate to the Warrington area.

For the details of the apps I have created please look at the link provided:  
<https://rayberry.github.io>

If you would like me to create a demo app using Swift to show you what I can do, please let me know.

I look forward to hearing from you.

Regards

Ray Berry

## Ray Berry

### EMPLOYMENT HISTORY

#### iOS Developer

10/2017 – Present

Bourne, UK

- Good knowledge of Swift 5 and Xcode 10.
- Developed the following Apps :
  - ScrumIT - Scrum Planning Poker using Fibonacci numbers and collection views.
  - FileIT - Inventory Management to track inventory to assist with home insurance or moving house. Uses Core Data, User Authentication and Core Graphics animation.
  - Weather – using Rest APIs, JSON and GPS location data to retrieve weather data.
  - To do list – using Realm and Core Data to store shopping/to do list persistent data.
  - Chat - using Firebase Cloud Services to register users and store chat data.
  - Flower classification – using CoreML and the Caffe model to take photos of flowers to confirm the type of flower that is in the photo. Experience of CreateML to develop my own models.
  - Augmented Reality Tape measure – using ARkit and Scenekit to measure 3D objects.
  - Video Streaming - using HLS (Http Live Streaming) to showcase apps that I have developed.
- Agile – qualified Scrum Master – PSM1 certification.
- UI/UX Design – experience of creating wireframes and mock-ups.
